### NMDVR Participates at Santa Fe Youth Career Fair!

**William Hendricks**, a NMDVR Rehabilitation Counselor, developed a keen understanding of working with youths during his career. He specializes in working with teens and some individuals up to age 21, with disabilities.

The program that William is involved with is called "School-to-Work Transition." William has over 20 year's hands-on experience. He works with the individual, and sometime the parents or guardian to plan for future employment.

Santa Fe Public Schools is hosting CAREER QUEST 2007 on Thursday, March 27, 2008 from 8:30 to noon. CAREER QUEST 2007 is located in the Santa Fe High School Gymnasium, 2007 Yucca Road, Santa Fe. This year's theme "...the future is within your reach" reflects the commitment to youth in Santa Fe. It is an ideal opportunity for teens to discuss work opportunities with an employer representative.

Take the time to visit the NMDVR booth and speak with William Hendricks about the work he performs and the type services NMDVR provides. He would be pleased to offer assistance. For individuals who can not attend but need some information regarding School-to-Work Transition, call NMDVR at 505-954-8500.
